

Appointment Information

Thank you for your interest in setting an appointment.

Currently, Eventus WholeHealth provides services including Primary Care, Mental Health, Podiatry, Optometry and Audiology services to patients residing in long-term care facilities. Eventus WholeHealth does not see patients on an outpatient basis.

If your request is related to a family member residing in a long-term care facility please confirm with the facility that Eventus WholeHealth is currently providing any or all of our available services to the facility.

You may also utilize the "Contact Us" option on this site and we will confirm the availability of services.

Provided our services are available, your family member can be added to the Eventus WholeHealth patient roster by completing the Skilled Nursing Services Request form or Assisted Living Service Request form located in the Facility Forms section of the Eventus WholeHealth website.
